EDUCATION

University of Ilorin, Ilorin, Kwara State   **December 2021 – May 2025**

B.SC COMPUTER SCIENCE

WORK AND RESEARCH EXPERIENCE

PROJECTS

abdultech.me | SvelteKit, Typescript, Tailwind CSS, Markdown, Spotify API | *Github*
- Developed dynamic personal portfolio website using SvelteKit, TailwindCSS, and Markdown, featuring responsive design, smooth scrolling, and interactive project galleries. Utilized Mdsvex for writing and rendering blogs. Continuously updated to reflect evolving skills and new projects.

Disney+ Clone | ReactJS, Tailwind CSS, Firebase, TMDB API | *Github*
- Developed a responsive Disney+ clone using ReactJS and TailwindCSS, featuring Firebase authentication and storage for secure user sign-up and login. Utilized the TMDB API for movie and TV show data, showcasing strong API integration and data manipulation skills.

Sync-Tube | NextJS, Typescript, Tailwind CSS, Supbase | *Github*
- Developed a real-time synchronized video streaming and chat application using Next.js, Typescript, and Supabase Realtime, enabling seamless group watching and chat experiences. Users can enjoy online videos while engaging in chat conversations with friends.

Spotify Activity | NextJS, Typescript, Tailwind CSS, Spotify API | *Github*
- Developed a personalized music exploration platform using Next.js, Typescript, Tailwind, and the Spotify API

TECHNICAL SKILLS AND INTERESTS

- **Programming Languages:** Python, Javascript, Typescript, Java
- **Frameworks/Libraries (Frontend):** ReactJS, NextJS, Svelte, SvelteKit, Tailwind CSS
- **Frameworks/Libraries (Backend):** Node.js, Express.js, FastAPI, Flask
- **Databases:** MongoDB, Firebase, Supabase, SQL, PostgreSQL, Redis
- **Tools/Platforms:** Git, GitHub, Vite, Bun
- **Exploring…:** Docker, Kubernetes, Turborepo**,** React Native
- **Interest:** Astronomy, Computer Science
